

# Makeup Brushes Net Protector Guard

## P3608-Protective netting Sleeve

### 【 Be Applicable 】

Suitable for any brushes, prevent brushes from drying, store tools

Colorless, odorless, non-toxic, non-irritating bristles

Easy storage to prevent cross contamination

According to the needs of brushes, the length can be cut by yourself

When the brush is not in use, it is more clean, hygienic and dust-proof by wrapping the net cover, which can also prolong the life of the brush.

### 【 Instructions 】

1 First cut the size to be used, and the protective net is inserted under the handle.

2 Pull up to the position of the brush head, and pull it up as you want to take it out.

3 Adjust the net cover to cover all the bristles.

4. It is convenient to put in the bag and the brush will not damage the mess.

### 【 Precautions 】

※The brush cover must be pulled up from the handle, not the direction of the bristles, otherwise the brush will be easily damaged

※After washing the brush, gather the bristles, smooth the frizz, and dry the brush vertically to prevent the backflow of water. Product Contents and Specifications.
